

Product: Flexible Portable Chamber System including mattress, internal frame, anti-roll bolsters, FDA approved Breathing Air Compressor and chamber with a range of pressure capability with many accessories included. Rental fees vary with chamber model. Higher pressure models cost slightly more and may include one or two Oxygen Concentrators. 4 psi models are less. Chamber footprint: 36"x 105"

Oxygen Concentrator: ANDI model OG-20H or OG22HP. No oxygen cylinder rentals or refills required. We have many concentrator options available to suit any need or pressure requirement.

Training & Installation: Our representative will come to your home to install the system and train your family. We will deal with "the boxes in the corner". Your family will be comfortable with the system, the safety aspects, the operation, the care and maintenance and learn where to get more info. We provide standby tech support. The cost for this unique service is \$1,995 for on-site training (all expenses included - continental USA only) by certified ANDI Instructors for up to 3 persons. ANDI Textbook is available prior to training and certification as Hyperbaric Chamber Operator is included.

Shipping & Packaging: Shipping, Insurance & Handling charges for all components both ways is the renter's responsibility. Freight charges of \$250 - \$385 (depending upon equipment) are added to the first month's rental. The renter pays for the return shipping. See the example below.

Terms: Rental contract must be pre-paid and executed before delivery of equipment. A Promissory Note for the full value of the equipment is required in the event that equipment is not returned or is otherwise stolen or damaged beyond use. A Doctor's Prescription is required.

Purchase Option: Should the renter elect to purchase a new chamber system there is a rebate offered. This purchase rebate is credited toward the purchase of a new system from your ANDI representative. Prices are subject to change.
